

Become an HI Standards Partner & Pump Systems Matter Sponsor

A Partnership between Engineering Consultants, Pump Users, the Hydraulic Institute & Pump Systems Matter

Become an HI Standards Partner

Engineering consulting firms and pump users can become Hydraulic Institute (HI) Standards Partners. Position your company as a pioneer in supporting and creating pump standards, while promoting pump systems optimization and energy efficiency. A valuable package of HI products and services far exceeds the investment required.

Benefits of becoming a Standards Partner include:

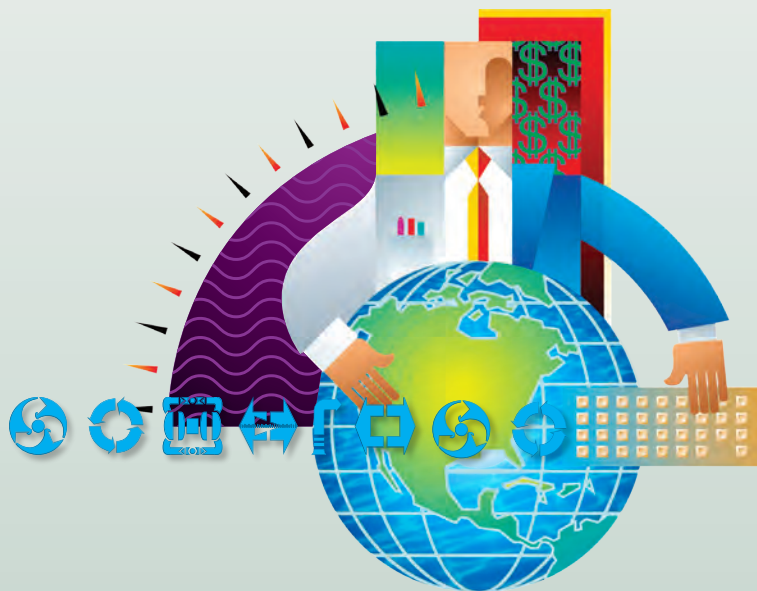

- Standards Development Participation: access to HI technical committees at three meetings a year
- Networking, Education and Professional Development with leading pump and supplier OEMs
- Complimentary HI Standards on CD-ROM or web-based subscription
- Copies of HI Guidebooks
- Access to pump e-Learning courses & to HI's electronic data exchange standard
- Listing in HI's Consultant's Directory and HI/PSM web listings, with exposure to 30,000 visitors a month
- Discounts on hosting PSM training classes and opportunities to become an instructor

Participation Opportunities

HI develops industry standards and guidelines on pumps and pumping systems—important to all end-users, engineering consultants and government agencies that specify, purchase or design pumps and pumping systems.

By becoming an HI Standards Partner your organization can identify one or more individuals with unique technical skills and knowledge to participate in the ANSI/HI Canvass Review process and/or serve on HI committees. Any full time employee of a Standards Partner company, with appropriate technical expertise is eligible to participate in HI standards or guidelines writing committees. Standards Partners may also make pump knowledge presentations at HI meetings with advanced approval and participate in the development of pump and pumping systems educational programs or serve as an instructor.

The business & leadership opportunities of being an HI “Standards Partner” are significant...the return on your investment is substantial.

Join the Pump Industry’s Standards Leader

Standards Partners also become sponsors of Pump Systems Matter

As an HI Standards Partner you are also a sponsor of PSM at no extra cost. Position your organization as a leader by hosting education programs and promoting pumping systems efficiency and energy conservation.

Other benefits include:

- ✓ Advance awareness and opportunities to share incentives to optimize pumping systems
- ✓ Market transformation leadership: play a role in advocating for pump systems “Energy, Efficiency and Economics”
- ✓ Gain Market Exposure: by using the “Sponsor of PSM” logo
- ✓ Gain timely insights into energy efficiency policy and trends, helping shape outcomes
- ✓ Save money with access to PSM training at substantial discounts
- ✓ Build new business relationships and opportunities with pump and supplier OEMs

HI Standards Partners receive a complimentary package of HI standards, guidelines and PSM education products, which are updated as new documents are published. For more information on product and services packages and fee schedule go to www.Pumps.org/StandardsPartner.

To apply as an HI Standards Partner, or for more information, contact StandardsPartner@Pumps.org or call (973) 267-9700 x117.

About Hydraulic Institute

Since 1917, the Hydraulic Institute (HI)—the largest association of pump industry manufacturers in North America—has served member companies and pump users by providing product standards and a forum for the exchange of industry information. HI has established itself as the leading spokesperson for the North American pump industry. The Institute offers a wide variety of programs and services, each tailored to member needs: standards development, networking opportunities, access to specific statistical data and economic reports, electronic services, educational materials, breaking industry news, participation in industry initiatives, and more. For more information go to www.Pumps.org/StandardsPartner.

About Pump Systems Matter

Pump Systems Matter (PSM) is a non-profit (501(c) 3) educational foundation, established to educate the marketplace and promote pumping systems energy efficiency. PSM brings together a wide range of stakeholders to advocate for the benefits gained by optimizing pumping systems. For more information go to www.PumpSystemsMatter.org/Value or www.PumpSystemsMatter.org/ECFirm.

Sponsor of:

Energy | Efficiency | Economics

**Exclusions: Corporations which are eligible to join HI as Pump or Supplier OEMs, Pump Systems Integrators and Software Companies are not eligible to become Standards Partners.*
