

# Contents

Introduction .....	1
Purpose .....	1
A Career in Pumping .....	1
Industry Need .....	1
The Solution .....	1
Key Definitions for Use in Body of Knowledge.....	3
Scope and Learning Outcomes Discussion .....	4
Learning Outcomes.....	5
Outcome 1 - Introduction to Pumps.....	5
Outcome 2 - Pump Performance Curves and Power Consumption .....	6
Outcome 3 - Pump Systems .....	7
Outcome 4 - Rotodynamic Pump Designs and Types .....	9
Outcome 5 - Positive Displacement Pump Designs and Types .....	11
Outcome 6 - Pump Components and Accessories .....	13
Outcome 7 - Drivers and Drives .....	15
Outcome 8 - System Design Considerations .....	17
Outcome 9 - Varying the Pump Operating Point .....	19
Outcome 10 - Pump Selection, Specification, and Application Engineering .....	20
Outcome 11 – Testing .....	22
Outcome 12 - Pump Installation, Commissioning, and Startup .....	24
Outcome 13 - Maintenance .....	25
Outcome 14 - Troubleshooting .....	26
Outcome 15 – Pump System Optimization and Analysis .....	28
Outcome 16 - Markets and Applications .....	30
Appendix A: Abbreviations.....	31
Appendix B: Market Segments .....	33
Appendix C: Job Titles and Descriptions .....	34
Appendix D: Learning Matrix.....	38
